Arm Theraband Exercises: Lying

Do these exercises while lying in bed, holding one end of the theraband in each hand. Be sure to breathe as you do these exercises. Do the exercises with slow, steady motions for the best results.

Exercises should be done _____ times each day. Repeat each exercise ______ times.

Do these exercises with: □ Right arm □ Left arm □ Both arms

If you are to use your right or left arm only, you may tie the theraband to the bed or hold the theraband in the other hand as an anchor.

□ With both arms straight, holding the theraband, place one hand across to the opposite arm to anchor the band.

Slowly bend your other arm at the elbow, bringing your hand to your shoulder.

Straighten your elbow slowly, back to the start.

Relax and repeat.

□ With both arms straight, holding the theraband, place one hand across to the opposite arm to anchor the band.

Keeping your arm straight, slowly raise your other arm up over your head, stretching the band.

Hold and then slowly bring your arm back down to your side, keeping the arm straight.

Relax and repeat.
