

CT (Computerized Tomography) Scan

A CT scan shows pictures of your body parts. A small amount of dye may be put into a vein in your arm. This dye leaves your body after a few days.

If you have any allergies to medicines, foods or other things, tell the staff before the test.

If you are pregnant or think you might be, tell the staff before the test.

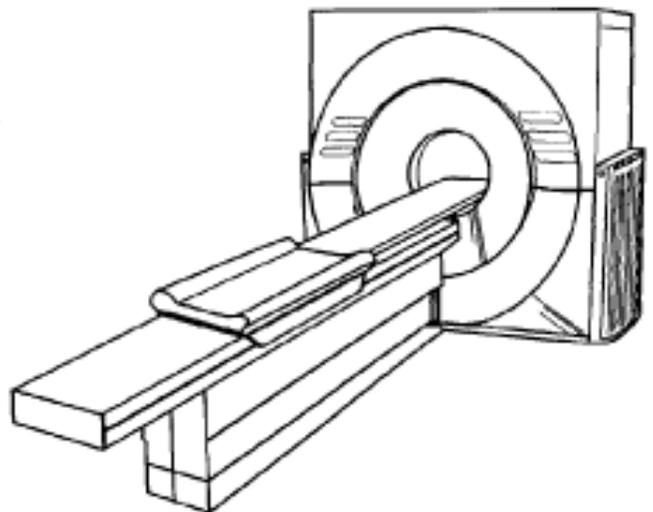

Arrive on time for your test. The test takes 15 to 20 minutes for each area you are having checked. If you are having a scan of your abdomen (stomach) or pelvis, allow for an extra 2 hours to drink the liquid dye.

To Prepare

- **Do not** eat or drink anything, including water, for 4 hours before the test.
- You may take your medicines with sips of water.

During the Test

- If you are having an abdominal (stomach) or pelvic scan, you need to drink liquid dye. You drink the first part of the liquid when you arrive, more about 30 minutes later, and the rest of the liquid just before your scan, about 1 hour later.
- You will wear a hospital gown and lie on a table.

CT（电脑断层摄影）扫描

CT 扫描显示您身体各部分的照片。可能要将少量显影剂注入您臂部的静脉内。这种显影剂几天之后会从您的体内排掉。

如果您对药物、食物或其他东西有任何过敏，请在检查前告知医疗人员。

如果您已怀孕或认为您可能已怀孕，请在检查前告知医疗人员。

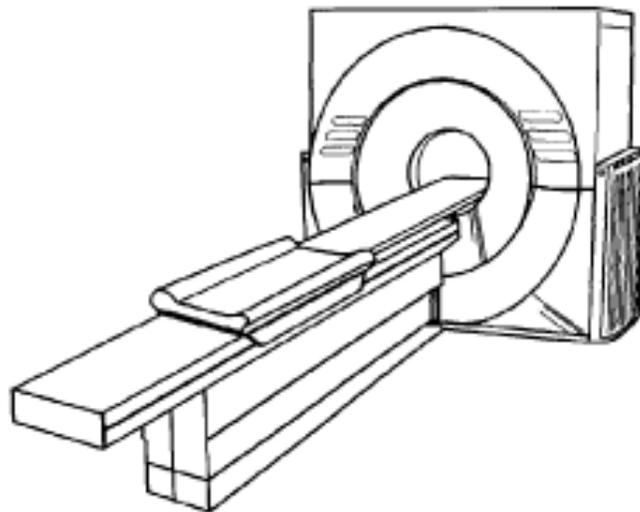

做检查请准时到达。检查每一部位要花 15 - 20 分钟。如果您要做腹部（胃）或骨盆扫描，请留出 2 个小时喝液体显影剂。

准备工作

- 检查之前的 4 个小时不要吃喝任何东西，包括水。
- 您可用极少量的水服药。

检查期间

- 如果要做腹部（胃）或骨盆扫描，您需要喝液体显影剂。您到达时喝第一部分液体，30 分钟之后再喝一次，大约 1 小时之后，也就是在您即将扫描之前喝完剩余的液体。
- 您将穿医院的袍子，躺在一张台子上。

- An IV (intravenous) is put in a vein in your arm.
- Dye is put into your IV. You may feel hot or flushed for a few seconds.
- Lie still during the scan.
- You may be asked to hold your breath at times.
- The table moves slightly between each scan.

After the Test

- You may return to your normal diet and activity.
- If you had an abdominal or pelvic scan, you may have some loose stool from the liquid you drank.
- Test results are sent to your doctor. Your doctor will share the results with you.

Talk to your doctor or nurse if you have any questions or concerns.

- 将在您手臂的静脉中放 IV（静脉注射）。
- 显影剂通过 IV 注入您体内。您可能有几秒钟会觉得发热或脸发红。
- 扫描时请静躺。
- 您可能不时被要求屏住呼吸。
- 台子在每次扫描之间会稍作移动。

检查之后

- 您可恢复正常饮食和活动。
- 如果做了腹部或骨盆扫描，您可能会由于所喝的液体而有些拉稀。
- 检查结果会送给您的医生。您的医生将告知您结果。

如果您有任何疑问或担心，请告知您的医生或护士。
