

Hearing Test for Your Baby

Babies learn to understand and speak words through hearing. If your baby has a hearing problem and it is not found, your baby will have a hard time learning words and how to talk. When hearing loss is found early, treatment can begin right away to prevent long-term problems.

Hearing Test

As a part of your baby's care, a hearing test will be done. The test measures how your baby responds to sound. It takes about 10 minutes and can be done while he or she is sleeping.

- A small probe is placed in or near the baby's ear. It sends soft clicking sounds into the ear.
- Small pads may be put on your baby's head. These measure how the baby's brain responds to the sounds.

The Results

The results of the hearing test will be given to you and to your baby's doctor. If your baby does have hearing loss, you will get more information about treatment and resources, and more tests will be done.

If you have any questions about having your baby's hearing tested, talk to your baby's doctor or nurse.

Baaritaanka Maqalka ee Ilmahaaga loogu talaggalay

Ilmuhu waxay bartaan in ay fahmaan ayna ku hadlaan ereyada iyadoo u maraya maqalka. Haddii ilmahaagu uu dhibaato maqal qabo aanna la ogaannin, ilmahaaga way ku adkaan doontaa inuu barto ereyada iyo sida loo hadlo. Marka lumis maqal waqti hore la ogaado, daaweyn ayaa isla markiiba la billaabi karaa si looga hortago dhibaatooyin waqti dheer.

Baaritaanka Maqalka

Iyadoo qayb ka ah daryeelka ilmaha, ayaa baaritaan maqal la sameyn doonaa. Baaritaanku wuxuu cabbirayaa sida ilamahaaga ay uga jawaabayaan dhawaqa. Wuxuu qaadanayaa 10 daqiiqadood waxaana la sameyn karaa inta uu isagu ama ayadu ay hurdayaan.

- Qalab yar ayaa la dhigayaa gudaha ama meel u dhow dhegta ilmaha. Waxa uu dhawaqyo fudud u diraya dhegta ilamaha.
- Cadad yar-yar ayaa la dhigi karaa madaxa ilmaha. Kuwaas ayaa cabbiraya sida maskaxda ilmuhu ay uga jawaabayso dhawaagyada.

Natijooyinka

Natijooyinka baaritaanka maqalka adiga iyo dhakhtarka ilmahaaga ayaa la idin siin doonaa. Haddii ilmahaagu uu qabo lumis maqal, waxaad heli doontaa war dheeraad ah oo ku saabsan daaweynta iyo caawinaado kale isla markaana baaritaan dheeraad ah ayaa la sameyn doonaa.

Haddii aad wax su'aalo ah oo ku saabsan in ilmahaaga maqalkiisa la baaro aad qabtid, la hadal dhakhtarka ilmahaaga ama kalkaalisada.
