When you use needles or syringes at home, you need to throw them away safely.

• Use a strong container that has a cap or lid, such as a bleach or detergent jug or a coffee can. Do not use milk cartons or glass bottles. You can also buy needle boxes at your pharmacy.

• Put your needle and syringe in the container right after use. Do not recap the needle.

• Cap the container tightly after each use.

• Keep your container out of the reach of children and pets.

• When the container is ¾ full, put the lid on tightly. Use heavy tape like duct, packing or electrical tape to seal the lid.

• Check with your local pharmacy, trash company or health department about what you should do with the container.

• Some cities have collection sites at hospitals, clinics, drug stores or fire stations where you can dispose of the container.
• Your trash company may allow you to set the container out beside your trash. This is so it can be handled safely and not be mixed in with regular trash.

قد تسمح لك شركة القمامة لديك بوضع الحاوية بجانب سلة المهملات. هذا حتى يمكن التعامل معها بأمان ولعدم خلطها مع القمامة العادية.
