- Do not drink alcohol since it can further damage your liver.

- Eat small portions of low fat foods to decrease nausea.
- Apply cream often to itchy, dry skin.

If you have hepatitis or are caring for a person with hepatitis:

- Wash dishes well with hot, soapy water and rinse.
- Wash clothing, sheets and towels used by the person with hepatitis separately.
- The person with hepatitis should not have sexual contact, including kissing, until his or her doctor says that it is safe.
